

EPISODE 1 · AI-VANTAGE

Why AI-Vantage Exists

KEY TAKEAWAYS

- 1** AI demos are easy. AI that survives real business constraints is rare — that gap is why this series exists.
- 2** Every session tests ONE capability against a real Nigerian business constraint: bandwidth, budget, small teams.
- 3** Failures are reported honestly, not edited out — a confident failure report beats a cherry-picked win.
- 4** Every session ends with one concrete thing to try that week, not a reading list.
- 5** Built for founders, students, and TEKHub Academy trainees — no AI background required.
